

## Myers Court Sales Go Live!

London, 2nd September 2019

Merrick Real Estate's new residential development at Myers Court, London SW 4 ([Myers Court](#)) has gone live for sales enquiries. The scheme is scheduled for practical completion in October 2019.

Myers Court is a luxury development of one, two & three bed apartments combining sophisticated contemporary living and iconic heritage within the Abbeville Village area, near historic Clapham Common.

The location offers the best of both worlds - London 'village'

living with great local bars, restaurants and amenities, whilst being only 20 minutes travel time from Central London, the City and beyond.

The generously sized double-aspect apartments provide luxurious interior design and fittings with a contemporary Art Deco theme, and stunningly crafted materials combine crisp detailing in brushed stainless steel against the warmth of natural oak flooring throughout.

Mark Norris, Managing Director of Merrick Real Estate commented ' We are delighted to be bringing these unique, high quality apartments to the market in such a great location, and we are already seeing strong interest before the full public launch in September 2019'
